The aims of the workshop are to

- + Present IFToMM as an active world organization that can contribute to United Nations 2030 Development Agenda
- + Present and highlight all the research activities realized in IFToMM community that can contribute to reach some target within SDGs, Sustainable Development Goals
- + Increase the awareness related to SDGs in IFToMM scientific community
- + Generate a network of active researchers, with specific interest on effects of new technologies on sustainable world
- + Foster dialogue between technologists and humanists.

Workshop Topics

Papers are welcome on topics related to the aspects of theory, design, practice and application of the Mechanism and Machine Science, which can give some contribution in reaching one or more Sustainable Development Goals, including but not limited to

- Biomechanical Engineering
- Linkage and mechanical control
- Sustainable Energy Systems
- Robotics and Mechatronics
- Green Tribology
- Socio-Technical Systems for sustainable and inclusive development
- Education
- Terminology
- Computational Kinematics
- Gearing and Transmissions
- Vibrations
- Reliability
- Humanitarian Engineering and Appropriate Technologies
- Rotordynamics
- Multibody Dynamics
- Micromachines
- Engines and Powertrains
- History of Mechanism and Machine Science
- Transportation Machinery

Paper submission, proceedings

Authors are kindly invited to submit a full paper for a Scopus indexed book of the Springer Series *Mechanisms and Machine Science* after payment of a full registration fee.
